PRODUCT CHANGE NOTIFICATION

15 January 2018

Notification ID: CN-180105

Notification Type: Releasat Biological Indicator Culturing Set Relocated to a New Facility

Dear Customer,

We would like to take this opportunity to notify you of a change that will be made to the manufacturing location of Mesa Laboratories' **Releasat Biological Indicator Culturing Set reorder number RG/100**. As detailed in previous notifications, Mesa Labs, Bozeman MT is relocating manufacturing operations from its current facility at 10 Evergreen Drive, Bozeman, MT 59715 to a newly constructed facility at 625 Zoot Way, Bozeman, MT 59718. **Assembly and packaging of Releasat Biological Indicator Culturing Set reorder number RG/100 at the Evergreen Drive facility will cease on February 28, 2018**. Validation of the component products (media and log 6 *Bacillus atropheus* strips) is already underway.

If you require any additional lots manufactured from the Evergreen Drive facility, we encourage you to place your order as soon as possible. **Last day to order this catalog item from the Evergreen Drive facility is February 16, 2018**. Quantities may still be available for purchase after that date but Releasat will no longer be manufactured at the Evergreen Drive facility after **February 28, 2018**.

Validation activities for Releasat are currently underway at the Zoot Way facility and production will resume there immediately after validations are complete. Relocation activities have been planned to not interrupt supply.

As always, if you have any questions, please contact your Mesa Laboratories Representative.

Beth Ridgeway, Director of Production
