

MesaLabs

Dear Sir/Madam,

Rx-360 is a non-profit organization comprised of companies and volunteers from biotech and pharmaceutical manufacturers and suppliers. The mission of Rx-360 is to promote patient safety by enhancing the security of global healthcare supply chains and the quality of materials within those supply chains.

Rx-360 is committed to its mission through joint audits, information sharing and other initiatives. Further details regarding Rx-360's activities, including a list of member companies, are available at <http://www.rx-360.org/>.

Mesa Laboratories' manufacturing facility located at **625 Zoot Way, Bozeman MT 59718** was approached as a supplier of one or more materials purchased by members of the Rx-360 International Pharmaceutical Supply Chain Consortium. Rx-360 has scheduled an on-site quality audit of our facility for the week of October 01, 2018. The scope of the audit is intended to cover the Quality System and the process performance qualification packages for all biological indicators of interest to customers who choose to support this audit.

We write to invite you to join this audit, see savings, and enjoy the benefits of the Rx-360 Joint Audit Program.

Rx-360 works exclusively with an independent audit service provider - British Standards Institution (BSI) - to assist in organizing and executing this important joint audit program. Should your organization wish to join this audit, BSI will contact you to request information for your particular audit special requirements.

Rx-360 understands that most suppliers undergo an extremely large number of duplicative audits every year, and the Rx-360 Joint Audit program was developed to alleviate this audit burden on suppliers by enabling several of our customers, in conjunction with an Rx-360 Member, to sponsor a single audit of this facility. This joint audit program is executed in a manner that a) prevents cross-disclosure among participating audit sponsors as to who else is participating, and b) protects trade secrets and other intellectual property.

Should you have any questions regarding the program, or if you wish to participate, please reach out to the Rx-360 Project Manager and Audit Program Manager at npitts@rx-360.org and emily.ward@bsigroup.com.

Please note that **ONLY** upon your written approval, will any Rx-360 audit report be shared with any third party organization, whether an Rx-360 member or not.

Sincerely,

Janis E Smoke
