

PRODUCT CHANGE NOTIFICATION

02 Apr 2018

Notification ID: CN-180303

Notification Type: Product Packaging Change

Dear Customer,

We would like to take this opportunity to notify you of a change that will be made to the packaging for MagnaAmp Negative Control. This notification impacts only one catalog number, **MANC MagnaAmp Negative Control**.

Effective immediately, MANC will no longer be packaged in a white cardboard 10-ampoule carton. 10-count Negative Controls will instead be packaged in opaque brown plastic bags approximately 4" by 7" (8.5 cm by 14 cm).

The package labeling has been slightly modified. An example of the new packaging appears below.

- The artwork which was previously included on the box will not appear on the bag.
- The plain white label used previously only included part number, lot number, and expiration date. The new label includes part number, lot number, expiration date, package count, storage conditions, the MesaLabs logo, and the address of the manufacturing facility.

As always, if you have any questions, please contact your Mesa Laboratories Representative.
